In the Event of a Claim

Quick processing. Clear procedures. Less stress.
Submit your warranty claim easily online via the QR code.

How it works

1. Submit a request

Start a repair request via the Tesla app or through a workshop.

2. Receive a cost estimate

The cost estimate is provided by Tesla or the workshop.

3. Submission & approval

Submit the cost estimate to the warranty provider.

→ Claims can be reported easily using the QR code.

4. Carry out the repair

After approval, the repair can be carried out by Tesla or an independent workshop.

Billing

Tesla: The customer initially pays the invoice and then submits it for reimbursement.

Independent workshop: Direct billing is often possible, provided the workshop offers this service and approval has been granted.

Important:
Approval must be
granted before
repairs begin.

*The applicable CarGarantie warranty terms and conditions in effect at the time the warranty is purchased shall apply.
